Mehmet Ali Gedik

Game Designer | Systems & Gameplay Design | Unity & C#

Kemer, Antalya, Türkiye | gedikmemoli@gmail.com

Professional Summary

Game Designer and Digital Game Design student (B.A., expected June 2028) specializing in core mechanics, systems design and interactive gameplay. Designed and prototyped six games in Unity and GameMaker for PC and mobile, spanning dice-based roguelike dungeon crawling, management simulation, precision platforming and word puzzles. Built a mobile puzzle game promoting local culture and tourism during an internship at Kemer Municipality. Experienced with Agile workflows, Trello and GitHub. Seeking a Game Designer internship.

Core Skills

- **Game Design:** Core Mechanics, Systems Design, Gameplay Loops, Game Economy Design, Balancing, Level Design, Combat Design, Rapid Prototyping
- **Engines & Programming:** Unity, C#, GameMaker, React Native, Expo, Node.js
- **Tools & Workflow:** GitHub, Unity Version Control, Trello, Agile Methodology, WebStorm
- **Strengths:** Creative Direction, Team Leadership

Game Projects

Firuze | Unity, PC

- Designed a management simulation for a Turkic clay-pot shop, covering shop economics, crafting loops and thematic integration of Turkic aesthetics.

Mind Café | Unity, Mobile | Trello board

- Developed a cozy cafe-management concept with lightweight resource management, built to deliver a relaxed, ambient player experience.

Broken Dice | Unity, PC | In Development | Trello board

- Created a roguelike dungeon crawler built on dice-based combat mechanics and randomized encounter structures.

Living Cells | GameMaker, PC

- Designed a 2D platformer adventure with level design centered on precision movement and environmental hazards.

Kelime Oyunu + | Unity, PC

- Developed a word game with an integrated admin panel for dynamic content management and question balancing.

Work Experience

IT Intern | Kemer Municipality (Kemer Belediyesi) | July 2026

- Completed an intensive one-month internship in the municipality's IT department.
- Designed and developed Kelime Kültür Kemer, a mobile crossword-style puzzle game promoting local culture and tourism in Kemer.
